INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

International application No.
PCT/US04/32286**Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement**

1. Statement

Novelty (N)	Claims <u>NONE</u>	YES
	Claims <u>1-4</u>	NO
Inventive Step (IS)	Claims <u>NONE</u>	YES
	Claims <u>1-4</u>	NO
Industrial Applicability (IA)	Claims <u>1-4</u>	YES
	Claims <u>NONE</u>	NO

2. Citations and Explanations (Rule 70.7)

Claims 1-4 novelty under PCT Article 33(2) as being anticipated by Claudio et al. (Clinical Cancer Research, 2000).

The instant claims encompass determining if an RB2/p130 gene expression system would be useful in treating lung cancer and then treating the cancer with the RB2/p130 expression system. Claudio teaches the determination that the RB2/p130 expression system would be useful for treating lung cancer and further treating the cancer by administering a retroviral expression vector that expresses the RB2/p130 gene product. As such, Claudio necessarily teaches all of the steps required to treat the cancer as required by the claims.

Claims 1-4 meet the criteria set out in PCT Article 33(4), and thus have industrial applicability because the subject matter claimed can be made or used in industry.
